**DETAILED ACTION*****Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an apparatus and method having, inter alia, at least one controller coupled to at least one light source to control at least a color of the variable color radiation generated by the at least one light source based on the at least one interruption of power supplied to the apparatus (claims 1, 44 and 45); a method having, inter alia, the act of controlling at least a color of the variable color radiation based on at least one interruption of power supplied to at least one light source (claims 24, 32 and 33); In an illumination system in which a plurality of illumination programs may be executed to control a generation of variable color radiation, an apparatus and method having at least one controller to indicate to a user, via at least the variable color radiation, that a particular illumination program of the plurality of illumination programs has been selected (claims 47 and 51). The remaining claims 2-6, 8-23, 25-27, 29-31, 34-43, 48-50, 52-54 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed 1-6, 8-27, 29-45 and 47-54.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
